ALBUQUERQUE DAILY CITIZEN - 1890

INTRODUCTION:

The form for this index was developed to cover the major news items appearing in the newspaper—births, deaths, marriages, interesting items—and mainly to find ancestors who were thought to be in the area. This is an index to the principals in the article, and covers only those persons of either New Mexican origin or who participated or appeared in New Mexico. In other words, news articles covering an event occurring outside New Mexico, but involving a New Mexican, are reported here; persons from some other state but participating in an event in New Mexico, also are included.

There are many newspapers in the state, and they shared news events. Many events and persons from around the state are included in the Albuquerque newspaper. Hotel arrivals in the Albuquerque major hotels were reported almost daily, so often the individual's name appears many times throughout the year, but only a line stating that they were in town. The compiler did not include every report such as this, or the work would have become unmanageable. Many mentions of prominent persons and politicians who were in the news quite often would have made this publication immense, and are not included unless the event could lead to other genealogical research.

FORMAT:

The index begins with the first mention of a person. Subsequent appearances are not indexed unless it changes the original information in some way. For example, _____ HENRY would be noted for date and page first appearing. Later, an article would add that it was HOWARD HENRY, who resided in Albuquerque and was a court stenographer. That item is referenced. Later if HOWARD W. HENRY, a court stenographer from Albuquerque, visited his parents in Dodge City, KS, that item is referenced. The compiler attempted to reference each time a new item was added to identify the person or some special event in their life. If there wasn't much contained about that individual, the compiler indexed other dates that show some tidbit of information about their life or help prove the individual was still in that location.

In an effort to aid identification, the compiler has included here the apparent residence of the party and the indicated occupation. Users are cautioned to check the source data and make these determinations for themselves, as they may be some unintended error in interpretation.

The microfilm containing this newspaper is on file at the Special Collections Branch of the Albuquerque Public Library, 423 Central, N.E., Albuquerque, New Mexico, 87102 (505) 848-1376.

These microfilms were difficult to read in many places. Often a day might be incomplete and then the complete issue would appear intermixed with a later date. If a name is indexed on a particular page and the microfilmed page is virtually blank, browse to the next few frames and that page may be copied again and there it is readable. Check a few frames before and after to make sure the pages are in order and the issue is complete. (*) = Some individuals required more than one line to present all the necessary data concerning their families or locations. Those individuals are

marked with a (*) after their name, and the reader should find another listing immediately before or after that, also marked with a (*).

So many of the towns had long names and space was limited in the printout for that word. I have taken the liberty of abbreviating the town or village names, and a list of these appears at the end of this preface.

FURTHER AIDS TO RESEARCH:

MAP: In an effort to help locate the many small towns, now ghost towns, listed as addresses for our ancestors, I have prepared a map showing the approximate location of many of the town in New Mexico in 1890. I hope you find it useful.

Your attention is called to a good resource for this time period in Albuquerque, that being the City Directory housed in the Special Collections Library. There you will find the Business Directory for 1883 and 1897; the City Directory for 1892, 1896, and 1899.

Also included here is a list of advertisements appearing in the newspaper and a list of the precincts in existence in 1890. A list of the newspapers throughout the state, which are often cited in the Albuquerque Daily Citizen, is given in aid in locating the probable residence of an individual.

Happy Hunting!
